## IT Centre- Now fully Functional Again

Sassa & the Minister of Social Development-Bathabile Dlamini donated new computers and we also refurbished two classrooms. There is still however, another two to be equipped and furnished. Our boys will now do their research on the internet at the facility instead of internet cafes. We are seeking partners who can further provide accredited training.

## Transformation Phase

Twilight Children is in the transformation phase from being a Shelter to a Child and Youth Care Centre (CYCC) by 1 January 2015. It is a process brought about by the implementation of the Children's Act, that aims to better protect the children in South Africa.

It means that the ways we have been "doing business" will now have to conform to the act. It also impacts on our funding as such programmes as the Outreach "Soup Kitchen" will have to be funded by new partners, putting a further strain on fundraising efforts.

We would like to express our deepest gratitude for your continuing support. Together we are making a difference. Touching and transforming the lives of the previously disadvantaged boys.

They have become recognised, confident members of our community. We want to share with you the huge and positive impact made in our community. Thank You!
